Tech Tips

We use Ushahidi to follow up on reports that are made during the day. And you can use this app to anonymously report events at the Climate Games.

- Download the app from the Play Store or Itunes, search for “Ushahidi”
- Open the app and choose in the upper right corner “+” and “Add Map By URL”
- Enter a name and description and the URL “ww.wijstoppensteenkool.nl/report”
- Choose the newly added map

Contact informatie

If you’re playing the Climate Games and you don’t want to use the app to report for your points, you send us a text message (no phone calls!) to the Climate Games Back Office (BO). They will gather all information during the Climate Games and will post your report online. It’s also possible to e-mail the BO, cause it’ll be much nicer for spectators to have some pictures or movie clip of your action to watch: report@wijstoppensteenkool.nl. And next to all this, there’s also some observers cycling through the area. They keep an eye on the teams to check that nobody’s cheating. But they can also help you by taking pictures and send a report to the BO. Teams can contact the observers by phone.
